Reissue Applications

1. The reissue oath/declaration filed (12/1/2005) with this application is defective because none of the errors which are relied upon to support the reissue application are errors upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

In regard to the error relied upon “fail to recite the feature of the temperature inside of the cabinet being set to a predetermined standard value by the temperature setting means” as described in page 2, lines 8-10, the “predetermined standard value” has been amended and the amended “temperature setting means for setting an inside temperature” has been claimed in the claims 8-10 (col.15, lines 34-35; col.16, lines 3-4 and 36-37).

In regard to the error relied upon “fail to recite that the compressor control means and fan control means are responsive when the inside temperature of the cabinet either rises above or falls below the set predetermined [*standard*] value” and “increasing or decreasing the rate of operation of the fan in the cabinet in accordance with a difference between the inside temperature of the cabinet and the predetermined [*standard*] value” as described in page 2, line 22 to page 3, line 7, these features are claimed in the claims 8-10 (col.15, lines 49-60, col.16, lines 19-30 and 50-61).

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-11 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Art Unit: 3744

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

See MPEP § 1414.01.

Allowable Subject Matter

3. Claims 1-10 would be allowable if Applicants overcome the rejection(s) under defective reissue declaration, set forth in this Office Action. Claim 11 would be examined after Applicants provide the supplemental reissue declaration to correct the defects.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809. The examiner can normally be reached on Monday-Thursday from 8:00 to 6:30.
